EVOLVE PULSE MIG

NEXT GENERATION PULSE MIG

MIG • TIG • MMA

THE FUTURE IS HERE

The EVOLVE is an ultra-powerful, full-digital welding machine, designed for heavy industrial applications. Equipped with advanced ARM Cortex microprocessors, Silicon Carbide IGBTs, and cloud connectivity, it delivers unmatched control, efficiency, and welding performance.

MODULAR ADD ONS

Futureproof your purchase with the EVOLVE PULSE MIG, with the option to add additional modules as you need them. These optional modules include an AC/DC TIG module and a Plasma Cutting module for all your future needs.

EVOLVE AC/DC MODULE

5 YEAR MACHINE WARRANTY

The AC/DC module lets you add the ability to TIG weld on your MIG machine, as well as AC MIG programs.

- Adds high-frequency AC & DC TIG
- Advanced AC MIG settings and features
- AC MIG gives you the heat input and the cleaning action usually reserved for AC TIG

NEW!

Protection Class	IP21S	Standard	AS 60974.1
Insulation Class	H	TIG Ignition Type	AC/DC HF
Dinse Connector	35/50	TIG Current Range	5-500A

- **Ultimate TIG Welding** - Weld every kind of metal. With the ability to run on an Alternating Current (AC) you're able to weld aluminium as effortlessly as mild and stainless steels on a Direct Current (DC).
- **Multiple AC Waveforms** - Customise your aluminium welds with Sine, Square, Trapezoidal and Triangle waveforms, or combine two to create a hybrid arc profile.
- **Mixed AC/DC** - Combine the cleaning action of AC with the penetration and arc force of DC in a single weld. Mixed AC and DC delivers faster travel speeds, stronger fusion on thicker sections and a more responsive puddle, especially on cold workpieces.
- **AC MIG** - Get even more control over your aluminium MIG welds. The alternating current (AC) gives you the heat input and the cleaning action usually reserved for AC TIG.
- **AC MIG Welding Speed** - Increase your efficiency with the advanced AC MIG Welding Speed. By setting the rate the wire is deposited during the negative portion of the AC cycle, you can adjust your welding speed while still maintaining your desired arc length.

WELDING FUME EXTRACTOR
230V SINGLE PHASE

Portable fume extraction system with moveable and flexible arm. Capable of filtering an area of up to 8 cubic metres. Provides easy & effective protection against harmful emissions of welding fumes and grinding dust. Internal collection tray for removal of particles and fitted with long-life filter element.

WARNING! WORKSAFE NEW ZEALAND

Prolonged exposure to welding fumes is a serious hazard to workers respiratory health.

Welding and hot cutting produce metal and fluxing fumes made up of toxic gases and very fine particles. Inhaling welding fumes can cause ill health.

- **Acute bronchitis**
- **Airway irritation**
- **Occupational asthma**
- **Metal fume fever**
- **Pneumonitis**
- **COPD - Chronic obstructive pulmonary disease**
- **Cancers**
- **Pneumoconiosis**
